High McDonald from Art Kevin 6/24/75

Raduon station explained to audience when people called in that there have been many other such reports in past and none proved true.

Sources former colleagues in sheriff's dept.: always heavy gambler, at track.

Despite his claim that someone in this room leaked he has been doing it himself. He has been working on a big Tom Snyder show for a month and agreed to an interview with Art on his tomorrow's return from New York. So, someon this that room leaked: McDonald personally.

Rather than his claim that the story was hot on the west coast, up and down, it got a play in L.A. only and Art's story only.

The sheriff/s told Art that McDonald spends fast, up to his budget. But all Art mentioned was betting at track. Hehad not heard of young woman.
